

Peggy Joyce Rogers

Tiptonville, TN

Our school district is in one of the poorest counties in the United States. High speed broadband Internet access is the gateway for our students to the world. As a special education teacher the Internet opens doors to virtual field trips and digital learning to help my students meet Common Core State Standards. However, Lake County's network is failing to keep up with demand and the need for a reliable high-speed network is only going to increase in the near future.
